SE 216 – SOFTWARE PROJECT MANAGEMENT
SOFTWARE MEASUREMENTS DOCUMENT

PROJECT NAME:stoKING

GROUP MEMBERS:Onur Ölmez,İlhan Mert Çetin,Kaan Aydın

Questions to identify measurements:
What did the team produce?

Identified measurements:
The team produce invoice and inventory management system We spent 10 hours in every 12 weeks. We found 4 errors.We spent 1 hour to solve each error. We did not spent much time with these errors. We build our project with thinking every detail.

Measurement storage and collection:
After we see the error,we solve and move on. At least 10 hours per person every week. Production collect the data with customer. If the customer make any click or adding we collect the data.
